

YINGLI MISSION SOCIETY

Save Life, Restore Hope

Yingli Mission Updates

Chairperson's Message

*Dear well wishers
Greetings from YMS. I
would like to thank you
for your valuable support
toward Yingli Mission
Society in reaching the
unreached its inception.*

*As always we thank for your generosity, with the
help of which the YMS is steadily moving towards
improving the lives of many underprivileged
section of people in the community. We strive
for providing Education, HIV/AIDS Prevention,
TB Control, Women Empowerment, Environment
Awareness and reach out to PWDs, Poor and
Marginalized in every possible way so that they
live a dignified life.*

*The YMS work closely to the local community it
serves, to ensure that every details are covered
and services are delivered. This communication
will be one way in which we would try to involve
the community in the work we do. We hope to
keep you updated with relevant information's
because without your cooperation and valuable
support the program would not be success.*

*We thank you once again for your encouragement
in reaching the people in need.*

Themjen Phom

Background

The Yingli Mission Society (YMS),
a non-profit making organization
formed by a group of likeminded people
from medical, sociological, educational
and theological background who
shared a dream to work on a people-
centric model of development in areas
of public health, education, women
empowerment, community development
and social welfare with dream, hope and
vision for the future. The future where
our needy friends are respected and cared
for, the future where equal opportunity is
given to all and a society with fullness for
living our life.

Since its inception, in our own
small way, the YMS has been supporting
hundreds of downtrodden people by
extending care and support, encouraging
people to good health, providing
initiatives for rural self sufficiency by
income generation and socio-economic
upliftment programs, addressing
among the mass the need to preserve
healthy environment and sensible use of
resources at hand, etc

Vision

YMS envisions a society where the sustainable opportunities are ensured for the poor and marginalized.

Mission

Our mission is to evolve self-confidence among the youth, women, students and public for sustainable approach to livelihood through creation of awareness and income generating activities, career guidance, counseling and training programs etc. Equipping them through skill development programs, educating them for the welfare of society and by living as an exemplary in constructive work to their fellow being, wellness of society as a whole. Given an opportunity every individual have potential and skill which can be explored and developed for purposeful living and sustain society for more challenging responsibilities through a holistic approach and human resource development.

Aims and Objectives

1. To promote sustainable livelihoods for vulnerable communities through microcredit and self- help concept;
2. To facilitate sustainable agricultural practices for economic enhancement of small and marginal farmers;
3. To facilitate the flow of services, products and resources from the Government to the communities;
4. To develop sustainable human resources and leaderships skills;
5. To prevent the spread of HIV and AIDS through targeted interventions, community sensitization, advocacy and risk reduction services;
6. To provide appropriate and adequate care and support services towards general population, PLHIV, drug users and their co-dependent.
7. To safeguard and promote the sustainable use of natural resources.

What we do:

1. Targeted Intervention (TI)

The Targeted Intervention (TI) programs among injecting drug users (IDUs) for prevention of transmission of HIV & AIDS among IDUs & their sexual partners (SPs.) in Longleng and Tamlu division.

The Project covers more than 30 villages and contacted 600 IDUs and 120 SPs.

The Program is supported by Nagaland State AIDS Control Society, Govt. of Nagaland.

The TI is a prevention intervention that specifically address high risk group who are at risk of acquiring or transmitting HIV infection. The central purpose of TIs among IDUs and their sexual partners is to prevent transmission of HIV.

The services provided by the TI and linkages to other services are:

Tier 1

- ∞ Needle Syringe exchange
- ∞ Outreach
- ∞ Counselling
- ∞ Condom promotion
- ∞ Basic/STI services
- ∞ Advocacy

Tier 2

- ∞ Opioid Substitution Therapy (OST)

Tier 2

Linkages to :

- ∞ DOT, ICTC and ART
- ∞ RCH services
- ∞ Detox and Rehab Centres

2. Vitamin Angels Program

This program connects vitamin A to children under five, focusing on children at-risk for Vitamin A Deficiency (VAD), who are without easy access to government sponsored, facility and community-based health services.

A simple, cost-effective dose of vitamin A every six months alleviates VAD and can prevent blindness and reduce under-five child mortality by 24% in at-risk populations.

VAD is the most common cause of preventable blindness in children under five and reduction of VAD has a vital role in maintaining eye health and vision, growth, and immune function.

Over 500 children across Longleng District have benefitted through this program. The program is supported by the Vitamin Angels International (Mumbai).

Stop TB Programs:

Under “Stop TB” programs, the organization has been collecting Sputum from vulnerable population of different villages in Longleng district and transports it to the Designated Microscopic Centres (DMCs) for testing. Those diagnosed TB+ were being treated by out trained DOTs Provider free of cost and also given cash reward to patients on completion of his/her treatment as per RNTCP treatment guidelines.

Besides, the organization also conducts consultation and advocacy meetings with stakeholders of various villages and towns to change their traditional concept of “TB as incurable and communicable disease”. The program is supported by Longleng District TB Control Society under RNTCP, Govt. of Nagaland.

Environment Development Programs:

Environment Development Programme is one of the major activities of the YMS. The society, keeping view the climate change, organize numbers of environment awareness programs through easy, painting, debate and drama competitions in dif-

ferent levels in Longleng district.

Besides, the organization also conducted numbers of Cleanliness drive, Tree Plantation, Awareness activities and campaigns through seminars, workshops, public meetings, film shows, advertisements, posters and banners are envisaged by collaborating with different schools, colony/ward clubs and SHGs. The program is supported by the Ministry of Environment & Forests, GoI through Nagaland Pollution Control Board, RRC, Dimapur, Nagaland.

Women and Child Welfare programme

While women form 50% of India's population, they are disproportionately poor and are at a disadvantage when compared to men. Discrimination against them results in lack of control over their own lives in general, their health and their income. The YMS has

been working to empower women belonging to poor, marginalized rural communities.

The Organization is involved in imparting SHG Trainings, assets creation training through promotion of dairy animals, supports for various vocational skills trainings and various vocational skills trainings, conduct programs on the issues of violence against women and girls, linking them other income generating activities to improve their socio- economic status.

Many children in our service area are either drop out or never been to school, since their parents cannot afford to provide uniform, text books, school bag and such other items. Their parents are mainly working in shops & establishments, market yards, hotels or work as auto drivers, vegetable vendors, or domestic help. We motivate their parents through counseling sessions to send their children to school.

The YMS has been providing educational material and financial help to poor children. We select the candidates by personal visits to their homes to assess the family background. There is pressing need to help more poor and needy children for continuing their education.

6. Poor, Destitute & Disabilities Welfare Program:

The organisation conducted numbers of programs for the welfare of person with disabilities (PWDs) including Mental retardation, cerebral palsy, autism and multiple disabilities in the district through sensitization and awareness meetings. Referring them to district level committee for certification, refer them to treatment centres and recommendation to different agencies for financial and other possible supports.

In the year December 2014 the organization with support from the 31 Assam Rifles, Hq.7 Sector of Assam Rifles donated 9 wheel chairs & 3 crutches to person with disabilities (PWDs) of Longleng District.

As an advocate of the poor, needy and disadvantaged, YMS strives to provide care for the destitute, so that they are able to live life to the full, regardless of their age or physical condition. Whether they prefer receiving care and treatment at home, or require professional nursing care in an Institution, YMS provides suitable facilities and support to cater to their needs.

YMS ensures no destitute old person is deprived of warmth during winters. The YMS collects old/used

woollens and other relief material from across the State by setting up collection points at various market, community and public places. YMS volunteers distribute the collected woollens amongst old & needy older persons. Over 100 destitute and old people spread across Longleng Distirct have benefitted through the campaign so far.

7. Pure Water Program

The Pure Water program works with village communities to empower them to improve their access to and quality of water. We do this by developing a sound and sustainable strategy for water preservation and access, implementing a strong technical plan to ensure water stays clean, and devising post-implementation initiatives to ensure long-term sustainability and viability.
